

UNTDA Board Meeting - December 12, 2017

Archives Report

We are keeping track of 63 fields of information for **8,419** people (an increase of 60 over the last 3 months), of which **8,168** (an increase of 50 over the last 3 months) are known NavRes Officer Cadets. The balance of **251** people are Founders, Honoraries, Staff and Associates with varying degrees of connectivity..

Of the **8,168** known NavRes Cadets:

7,177 are UNTDs (87.9%) and **991** (12.1%) are ROUTH+.

996 Cadets in total are known deceased (12.2%). 985 UNTDs (13.7%) and 11 ROUTH+ (1.1%).

628 Cadets in total are "VIPs": 562 UNTDs (89.5%) + 66 ROUTH+ (10.5%).

In all cases these numbers are understated.

There should be closer to 8,000 UNTDs and closer to 3,000 ROUTH+.

Deceased numbers for UNTDs should be at least doubled.

"VIP" numbers will probably always be understated.

Over the last 3 months, the major activity has been the launch of the "New" www.untd.org Website and the porting over and reformatting of all of our data, from the "old" Website, onto an "interim" website, and then onto the "permanent" Website.

Ross Connell's solicitation to our entire Contact List, over the summer, continues to bear fruit in terms of paid memberships and updated biographical and geographic location data

Active Membership data can now be accurately reported as, paid up to:

2016 = 49 - down from 52

2017 = 80 - unchanged from 80

2018 = 70 - up from 64

2019 = 67 - up from 65

2020 = 13 - down from 14

2021 = 01 - unchanged from 1

Total = 280 - up from 274

Additionally, 17 (down from 18) former Active Members from 2015 or earlier, are recorded.

The median age of all original UNTDs has now crossed "80" and all are now officially "Senior Citizens".

We continue to have mutually productive working relationships with a number of outside entities, most notably John MacFarlane of Nauticapedia and Pat Barnhouse, NACs Starshell Obit Editor, both former UNTDs

Respectfully submitted,

Bill C
